Aspiring full stack developer focused on front end web developer utilizing journalism background to provide a clean browsing experience. Recently earned a certificate in HTML, CSS, Python, JavaScript and SQL through Mimo and currently earning a full stack web development certificate through Washington University in St. Louis. Journalism experience has provided a chance to edit multiple stories throughout career, and that experience has already benefited debugging code and fixing any grammar and spelling errors, especially through HTML files. During journalism career many new skills on the job were learned, and with web development training that success can continue in this field.

SKILLS

HTML, CSS, JavaScript
Microsoft Word, Excel, PowerPoint
Adobe Photoshop, Bridge, Quark, InDesign
Facebook, Twitter, BLOX CMS
